NUK Bottle Cleanser

Understanding Life.

THE ENZYMES DO THE WASHING-UP HERE.

Obvious, isn't it...

A bottle cleanser from NUK? Naturally! Because we know what parents need, we have developed the NUK Bottle Cleanser that cleans effectively and is completely safe for your child. After washing up, everything is clean and there are no traces of bottle cleanser. The NUK Bottle Cleanser will win you over with no fragrance. With no colorants. But with a whole lot of "performance". PH-skin-neutral and hypoallergenic. Because we rely on the strength of nature. With enzymes that are particularly effective at dissolving milk, juice and, thanks to the new formula, even purée residue.

THE ENZYMES DO THE WASHING-UP HERE.

Obvious, isn't it...

A bottle cleanser from NUK? Naturally! Because we know what parents need, we have developed the NUK Bottle Cleanser that cleans effectively and is completely safe for your child. After washing up, everything is clean and there are no traces of bottle cleanser. The NUK Bottle Cleanser will win you over with no fragrance. With no colorants. But with a whole lot of "performance". PH-skin-neutral and hypoallergenic. Because we rely on the strength of nature. With enzymes that are particularly effective at dissolving milk, juice and, thanks to the new formula, even purée residue.

SAFE FOR BABIES

No fragrance. No colourants.
No traces of food or bottle cleanser left behind.

NATURALLY EFFECTIVE

With the power of enzymes, the NUK Bottle Cleanser has no problem cleaning away milk, juice and even stubborn purée residue. Thank you, dear enzymes!

ENVIRONMENTALLY FRIENDLY

Really quite green: biodegradable thanks to the natural ingredients and sustainable thanks to the bottle made of recycled plastic.

IMPROVED FORMULA

Our NUK Bottle Cleanser has always been great on milk and juice, but now even purée residue has to start trembling...

GENTLE TO BOTTLES

The NUK Bottle Cleanser was developed especially for baby bottles and teats, making it particularly gentle to the materials they are made from.

WELL TOLERATED

The NUK Bottle Cleanser is pH skin neutral and hypoallergenic. Dermatologically tested. Feels good!

100% RECYCLED

Pretty clever: the NUK Bottle Cleanser's bottle is made of recycled PET and can be reused with the refill pack.

DID YOU KNOW?

Many of the NUK baby bottles come with the NUK Temperature Control function. If the food is too hot, the normally blue indicator will turn white.

**TEMPERATURE
CONTROL**
